## SUN SETS ON "ZERO HOUR" ST. CLOUD CHAMBER OF COMMERCE DRIVE

### SIXTY ACRES AT ASHTON, 2 MILES EAST OF ST. CLOUD, BRINGS SIXTY THOUSAND DOLLARS

We are nearing the "Zero hour," and every person interested in the success of our drive must of a necessity be intelligently informed as to what is to take place. You cannot "sell" anything you do not "sell" anything you are not familiar with. It is true we have been running, for the past two weeks, double page advertisements in the local newspaper; there is much to be told yet. For your own information and that it may be digested thoroughly, I am writing fully the selling points, as I see them, of this Drive herein:

1. \$20,000.00, or 2,000 members, for the Chamber of Commerce, is a "big job" for any organization. \$20,000.00 is a small amount of money to ask for considering the returns in a financial way to the men who are investing.

It is the purpose of the Chamber of Commerce to relieve merchants and businessmen of our City of obnoxious soliciting from various advertising mediums and periodicals, and such other things as come up from time to time. It is the pledge of the Chamber of Commerce that we will take care of any worthy charity for the coming year. The advertising for the City of St. Cloud will be carried on by the newspapers. The publicity necessary for our City and its advancement will be carried on by the Chamber of Commerce. Merchants, when asked to subscribe to any advertising fund, may gracefully refuse by turning the solicitors to the Chamber of Commerce. If the subject matter is meritorious, we will not hesitate to advertise.

When you are selling a membership in the Chamber of Commerce, do not forget that you are doing that individual, whom you are selling, a favor, and you must make it appear in the light of a favor conferred. He or she is not favoring you, or the Chamber of Commerce; it is their own welfare you are interested in. When you sell a membership for \$10.00 in the Chamber of Commerce, you are giving, without obligation on their part, a Travelers Accident and Pedestrian Insurance policy with a value of \$7500.00. Anyone of sound mind, neither blind, nor deaf, between the ages of 15 and 70 is eligible for this insurance. There is no physical examination. Nothing is necessary but the membership in the Chamber of Commerce. We offer this only because we want the people of St. Cloud to feel, and to know, that they are getting something tangible for their money.

Every living person in the City of St. Cloud is eligible to membership in the Chamber of Commerce, whether that person be one day old or one hundred years old. Our budget is made up in such a manner that we will intelligently use this money for the uplift and the entertaining side of the younger folks. Children holding membership cards in the "Kiddie Division" of the Chamber of Commerce will be admitted to the Popular Theatre on Saturday mornings of each week, where they will be entertained with moving pictures of the highest, cleanest value. Pictures that entertain. Pictures that make for better, bigger, cleaner youngsters. And in conjunction with this, we propose that these children from the ages of one day to fifteen years shall have "parties" each month, either at the Chamber of Commerce, or in the Community Park. Parties that will make little hearts light; that the anticipation of will be only a fore-runner of the realization. This one phase alone should appeal to every mother and to every father, of a child in our City. Young bodies and minds kept alert and fit make citizens of a caliber invaluable.

Then, too, there will be the "Junior Division" for those from 15 to 20 years of age, to promote the athletic activities of our older boys and girls; base-ball, basket-ball, tennis, football, and such other entertainment as will uplift, and make strong bodies and alert intellects. This, too, should appeal to every mother and father in our City. The Boy Scouts are to be a factor also.

Then you have another thought in our proposed budget. We will give to the Red Cross Roll Call more money than they have ever had before. Every mother and every father in our City knows just how invaluable our Red Cross Nurse is to us. They know, now that they have had this past year or more of her services, that to do without her would be a calamity. When they enroll for membership in the Chamber of Commerce, they are aiding a multiple of causes.

And now our biggest thought. The Chamber of Commerce being the medium of reaching the outside world should have the undivided support of every person in our City. We will

maintain an office in our Chamber of Commerce, with reading room, writing room, rest room, and further, we will install a radio receiving set that strangers in our midst stopping at our hotels, who when the darkness of the evening closes upon them, will want something to rest their tired bodies and ease worried hearts and thoughts, may come to our Chamber of Commerce and there listen to radio programs from all parts of our country. We want to install in the thoughts of St. Cloud citizens that the Chamber of Commerce is a common meeting place, where they may come and find a cordial welcome, where they may come and find an environment that is pleasing, and for that reason it is essential and necessary that our Drive be a success.

The advertising end, which of course is primary, should be of vital interest to every person and in view of the fact that our property holders will benefit through the advertising we will have received with the money secured in this Drive, they should support this movement with every possible dollar, even until it hurts.

You have for prospects, every living human being in St. Cloud. You have for prospects every person in St. Cloud who has a friend, or chance acquaintance, or a prospective buyer of real estate anywhere in the world. I know of nothing that will offer a medium of advertising our City more than to present someone in the North with a paid up membership card in the St. Cloud Chamber of Commerce and a \$7500.00 insurance policy.

I could go on for page after page and show you why it is necessary that this Drive be a success. I could write reams of paper full of words intense with desire and determined in thought, but if you fail to digest every morsel and every thought written here, and to pass it on to the members of your home, and to install in them the same enthusiasm that exists in this office toward a successful culmination of this Drive it is all hopeless.

Let us prepare for a barrage and "go over the top" so that when we meet for the luncheon Friday noon. With the Team Captains and the team we can say "We finished; the Drive is a success."

C. C. BOLFE, Ex. Sec.

## Thanksgiving

THURSDAY, NOVEMBER 26th

Thanksgiving is as its name implies a day for giving thanks to God for His bountiful blessings, His tender mercies, His untiring patience and wondrous love.

If you attend Church regularly, if you go but once in a while, or if you have never gone before, it is your duty to kneel in the House of God on Thanksgiving Day giving thanks to the Divine Master, from whom comes all blessings, both great and small.

Attend the Union Thanksgiving services in the

## METHODIST CHURCH

At 10 A. M. November 26

REV. ARCHBISHOP OF BAPTIST CHURCH

WILL PREACH.

## ONE HUNDRED SIXTY CARS DAILY RECORD OF CITRUS SHIPMENTS LAST WEEK

Citrus Report for Week Ending Nov. 13th. Released by the Florida Citrus Exchange.

Shipments of Citrus fruit, oranges and grapefruit, out of the state for the week have been:

418 cars of oranges.  
570 cars of grapefruit.

997 total.

70 cars daily average oranges.

96 cars daily average grapefruit.

160 total daily average.

This gives us a total shipment of oranges to date of 880 cars as against 1,539 cars for the same period last season and 1,769 cars of grapefruit this year as against 2,380 cars last year.

The orange situation continues very firm with quotations in the state ranging from \$4.50 to \$6.75 f. o. b. shipping point. Prices released in the auction centers from \$3.85 to \$11.25 with the majority of the fruit ranging from \$7.25 to \$6.50. There still seems to be a very wide difference of opinion among shippers as to the value of oranges for which no good reason can be offered. In view of the very short supply in all markets it would seem as though many of these quotations are entirely out of line.

Grapefruit is being quoted all the way from \$2.50 to \$4.50 depending upon grades and sizes. In the auction centers the week has seen a steady decline with prices realized ranging

CONVICTION OF BANKER OF FLORIDA AFFIRMED

WASHINGTON, Nov. 16.—The conviction of Arthur E. Donegan, in southern Florida, on charges of misapplying the funds of a national bank was today affirmed by the supreme court.

Donegan contended that the Federal Circuit Judge Mark, who presided at his trial, was disqualified to preside in a district court in southern Florida and that another judge should have presided. The court held the contention frivolous.—Tampa Tribune.

from \$2.00 to \$6.05. The greatest difficulty seems to be with the average quality large size choice. There is a strong tendency among shippers to decrease shipments. Heavy shipments of Porto Rico grapefruit continues to come forward which has a very depressing effect on all Eastern markets. Over 20,000 boxes are expected to reach New York next week.

## ST. CLOUD TO HAVE GOLF COURSE AND COUNTRY CLUB HOUSE SOON

During the past week engineers for the cherry interest, of Palma Beach, who recently purchased a large tract of land adjoining St. Cloud on the west, were here laying out an eighteen hole golf course.

Work is to begin at once on a club house which will not cost less than \$50,000.

This is all in keeping with the rapid strides St. Cloud has made the last few months and will fill a long need.

## ST. CLOUD REALTY BOARD ADMITTED TO NATIONAL REALTORS BOARD IN CHICAGO

The St. Cloud Realtors Board during a recent meeting voted to become a member of the State and National Realtors associations and the necessary dues were forwarded to the headquarters of each.

## O. K. PLACED ON ST. CLOUD CAMP GROUND BY STATE HEALTH OFFICER

During the past week a State Health officer made a personal inspection of the St. Cloud Tourist camp ground and gave his approval to conditions at the camp. A large placard now showing it to be a certified camp.

## H. N. LUND NOW MANAGER OF INTER-OCEAN CITY'S ST. CLOUD OFFICE

H. N. Lund, formerly a member of the general sales staff, with headquarters in Kissimmee, has taken charge of the St. Cloud office of the Inter-ocean City sales organization and will direct the copy of salespersons working out of this office. St. Cloud, incidentally, is reported to be one of the best producing offices of the entire Florida Tropics Development Company's organization, which includes approximately fifty offices. St. Cloud residents early sensed the value of the Inter-ocean City development and backed their judgment with dollars. Several have had opportunity to resell at a very large profit but none has been willing to part with his or her holdings.

Inter-ocean City is reported to be making rapid strides and during the last few days it has been found expedient to remove the entire executive and accounting department to the new administrative building recently completed at Inter-ocean City. This leaves the Kissimmee office for use by the general sales and advertising organization, with sufficient room to care for rapid expansion for several months.

Concurrent with the announcement of the removal of the executive department comes a much more important announcement, that of an increase in price in the Country Club Section of 50 percent, effective November 25. This makes the increase in price in this section total 75 percent during the present month and it is anticipated that the section will be practically sold out before the latest advance becomes effective.

The same sales force in the St. Cloud office will continue under Mr. Lund's management.

ST. CLOUD LUMBERMAN TO BUILD IN GALLION GARDENS

F. E. Williams the pioneer lumberman has during the past week purchased two lots in the Gallion Gardens and will build a house on each lot.

Williams has always helped in every forward movement and has built many of the substantial residences of the city.

Rev. and H. D. Darbaker and Mrs. Nichols, of Emoryton, Penn., are in St. Cloud for the winter and are located in the Fry apartments on North Indiana Avenue.

The old Blackwell grove property, at Ashton, two and one-half miles east of St. Cloud, has again changed hands and this time the consideration was one thousand dollars per acre for the grove and adjoining lands.

Some eight years ago, Mr. Blackwell sold the eighty or more acres to Mrs. Mary Kinsman, of Kinsman, Ohio, for a price to be \$10,000, and about a year later S. W. Porter paid Mrs. Kinsman \$12,000 for the same property, after Mrs. Kinsman had taken off a good fruit crop from the 14 acres of grove on the property.

Some three years later after having the fruit and garden crops from the place Mr. Porter sold to Mr. Weatherston for about \$25,000. Mr. Weatherston has made considerable improvements, has had good fruit and other crops, and has sold ten acres of his original purchase and retains

## HIGH SCHOOL CARNIVAL COMING SOON TO BE GREATEST ATTRACTION IN ST. CLOUD

Plans are under for the annual High School Carnival, which will be held at the High School building on Tenth street in the very near future. The carnival has become an annual event in the life of the school, and an evening of fun, frolic and entertainment is assured those who attend.

The amusements provided will include the election of a Queen from the student body during the week preceding the carnival, and the announcement of the name of the young lady chosen will be made the night of the carnival, and the coronation will take place.

Next in line of the attractions will be the big minstrel show. A good committee has been appointed to look after this part of the amusements, and great progress is reported to date. Some splendid talent is in view, and the public is assured of hearing some good songs, seeing some good dancing, and hearing all the latest jokes. Those who remember this part of the carnival last year, know that this attraction alone is worth the price of admission.

Of course, there will be the circus, the fortune telling lady, the crazy house, etc., as well as the usual line of side shows, which will include many new and novel attractions which will be announced in detail later.

The date of the carnival and coronation will be announced later, and the people are urged to watch for the date and arrange their affairs so that they can be present and forget their worries and cares in an evening of fun. The money derived from the proceeds will be used for school purposes, among which is paying for the new piano recently purchased for the school auditorium. The cause is a worthy one and should be given the support of every citizen in the community who is proud of our growing school.

ten acres for a grove in this last sale. This left only sixty acres of land, with 14 acres in grove and one of the best locations in this section of the county.

Sixty thousand dollars for this place is a fair price now, but will be a very low price one year from now, according to the way that property is increasing in value.

Mr. Weatherston will sub-divide his ten acres and sell out lots for home-sites, which will make an ideal location for suburban homes to St. Cloud.

Every new owner of this property has made improvements that made its value increase, and Mr. T. Noland who this week acquired the sixty acres will make more improvements, according to a report reaching this office. Mr. Noland comes here from Orlando.

## FACT BOOK RELEASED BY NEWEST CITY

Inter-ocean City is to be complemented highly on a 16-page booklet entitled "Fact Book of Florida and Inter-ocean City on the Dixie" that it is distributing in large numbers throughout the entire country. This booklet contains in its pages, set forth in concise, terse form, the type of information that is most desirable to scatter broadcast throughout the land. Among the subjects covered are location, area, coast line, elevation, rainfall, lakes, soils, farms, railroads, waterways, harbors, highways, climate, population, building, bank clearings, property values, tourist business, manufacturing, agricultural products, and permanence. These topics are all general and supply valuable data on the entire state.

Under the heading "New Cities," are the following subheadings: "Inter-ocean City, a sound city, improvements precede opening, farms, golf, water sports, beauty, in Osceola county, the men back of Inter-ocean City, bank references, prices, profits — prospects, opportunity." While this booklet is issued for the purpose of furthering the Inter-ocean City project, it cannot help but prove of inestimable value to Osceola county and the entire state of Florida. The statistics have been carefully gleaned from reliable and authentic sources, they have been translated into understandable language and, best of all, they are actual facts. Particularly interesting, locally, are the facts concerning Osceola county, which cover its agricultural and manufacturing attainments in detail.

T. G. MOORE BUYS NEW HOME

T. G. Moore, members of the firm of the St. Cloud Real Estate and Investment Co., and vice president of the Chamber of Commerce today again showed his faith in the future of St. Cloud by purchasing the new Spanish type home just completed by A. J. Bookhout on Massachusetts Avenue, just across the street from the new Tribune plant, which is under construction. This is a splendid home and with its close proximity to the business center is very desirable.

FOR THE BENEFIT OF XMAS SHOPPERS

The ladies of the Presbyterian Church are giving a bazaar at the Chamber of Commerce room on November 28th at which time they will serve home cooked Cafeteria lunches and have on sale home cooked foods, fancy work and lots of sport will be had at the fortune telling booth, as well as the pumpkin, where you get your money's worth, and fun besides.

J. O. Green and daughter, Bern, of Alexandria, have returned to St. Cloud for the winter and are stopping at the Colvin house on North Indiana Avenue.

## Newly Equipped Rooms

Centrally Located

Penn and 11th St.

MISS AGNES COX

### HOLOPAW, FLA

There were services here Sunday by the Baptist pastor, which were enjoyed by all.

The holiday of the eleventh passed off quietly here. There being no exercises or program.

Mr. Huff happened to the misfortune of seriously injuring one of his eyes few days past. He was rushed to the hospital in Tampa for treatment and we understand is doing nicely.

Mrs. J. J. Strickland is still at her home to the regret of her many friends.

Miss Carrie Walters spent last week end with friends in St. Cloud.

Mr. and Mrs. L. Barrineau left Monday for their new home in Lake Wales.

Mr. and Mrs. S. N. McConnell have moved into the Barrineau cottage.

Mrs. A. M. Foote was hostess to the "Sew'd Rite" club on the 11th.

Almost all the members were present and two new members received. After all the business was attended to and a quantity of work done the hostess

served a delicious salad course. Every one reported Mrs. Foote an ideal hostess.

is looking forward to it, because they operation and will add much to the output of same.

Mr. Gay has accepted a position with the Naval store plant here and moved his family into our midst.

Next Sunday will be Rev. J. E. Skipper's last appointment here before conference. Let's every body go out and hear him.

### SCHOOL NOTES

The various clubs formed under the extra curricular program are adding much to the interest and enthusiasm of the pupils. Thursday morning, the assembling period, was given over to the various clubs. Each club presented a stunt which in some way represented the work of the club. The numbers were clever, and well worked out, and the use of costumes and dialogue added much to the interest. At the close of the period the judges announced that the Courtesy Club stunt was chosen as

the best although the rest were so good it was hard to decide.

The last assembly program was in charge of the Fourth grade. Since it was the last program to be given before Armistice Day, every number given dealt in some way with the keeping of the day. The following program was given:

Song—America.

History of Armistice Day—Cecelia Brooks.

Group of War Songs—Fourth Grade Girls and Boys.

All for the Great Adventure—Woodrow Hall.

Song—The Rose of No Man Land.

by four Fourth Grade.

In Flanders Fields—Nancy Hutton and Beulah Hutchins.

At the close of program, Mrs. Mendenhall of the W. C. T. U. gave us a talk on the work the W. C. T. U. has accomplished in the past few years.

The next program is to be given by the Eighth Grade and every one to Watchful. It should be the team that say they have something good.

More new members of the student body again this week. We now find enrolled in the Freshman Class 45, Sophomore Class 84, Junior Class 31 and Senior Class 13, making the entire enrollment 123.

Last week we had one day vacation that being on Armistice Day. On that day some of the students attended the football game in Klamath, some went to a game in Lakeland, while the basket ball girls who were chaperoned by Miss Clark went on a hike to Alligator Lake.

Friday the entire student body gave a "send off" to the boys who went to Matruh. It would be the team that the school was certainly backing them up. Although very few from St. Cloud got to see the Watchful game a large crowd is expected in Winter Haven this Friday Nov. 20.

Members of the Dramatic Club of the St. Cloud High School are now at work on their first play of the season, which will be given on the evening of December 11th. The play is the popular "Arrival of Kitty" by Norman Lee Swartout. The cast includes some of the best dramatic talent of the high school, so that the public will have the opportunity of seeing some old favorites as well as several new "dramatic finds". Further and more definite announcements will be made in forthcoming issues of the Tribune.

### METHODIST CHURCH NOTES

Special music will be rendered at morning and evening services. The solo in the morning another will be taken by Mrs. Lawrence, Soprano, one of the latest addition to the choir. At the evening service the choir will be assisted by an orchestra.

The Senior Ladies Aid announce in all day session for Tuesday.

The Gospel Team will go to Euclid on Sunday in order and take charge of the evening service there.

Union Thanksgiving Service will be held at the M. E. church on Thursday at 10 A. M. The Rev. H. Atchison of the Baptist Church will preach the sermon.

For the next few weeks the St. Cloud Choral Society will hold rehearsals at the Parish Guild hall (St. Luke Episcopal church) on Monday evening at 7:30. Residents and tourists who enjoy singing and read music are invited to join.

Refreshments will be served next Monday.

### REMOVING TO FLORIDA

Rev. and Mrs. A. L. Brand of Spangue Street, will start for their winter home in St. Cloud, Fla., tomorrow. A farewell reception in their honor was held in G. A. R. Hall on Tuesday afternoon, by Bingham Circle, Ladies of the G. A. R., with members of Bingham Post, G. A. R., and other Civil War veterans as guests.—The Rochester Herald, Brooklyn, N. Y.

### CARD OF THANKS

We take this means of thanking our many friends for their kindness and sympathy during our late bereavement.

We especially wish to thank Mrs. Caughman and her niece, Miss Carrie Meyer, and Mrs. E. P. Long for their courtesies and kindly words of sympathy; the Baptist Sunday School and Dr. Brinson and wife of Klamath for their floral offerings; also we thank the Klamath Brothers for their many courtesies and kindness.

W. H. PHELPS

### NOTICE

The City Commissioners of the City of St. Cloud, Florida, will receive sealed bids up to Friday, Nov. 27th 1935, at 10 A. M., for one, one-ton Ford truck chassis equipped with Buckstad axle. The Commissioners reserve the right to reject any or all bids.

JOHN E. COLLINS,  
City Manager, 10-27

Cafeteria Lunch, Home Cooking — Sandwiches, coffee, doughnuts, pie and ice cream, at Presbyterian Halls, Nov. 25th. Open at 2 p. m.

### TOO LATE TO CLASSIFY

THE HOME LAUNDRY, Walter Hearn, 4 1/2 miles east of the city wishes to announce that they have installed a two-tub engine drive washing machine, and will be open for business on December 1st. All we ask is a trial order, backed by a "money back if you want it" guarantee. Clothes called for and delivered. Also girl wanted at once to help in laundry. —Mr. and Mrs. Walter Hearn, Gen. Delivery, St. Cloud, Fla. 23-11p

### AT LAST! CHRISTMAS TO BE HOLIDAY FOR MAIL CARRIERS

Washington—An advance Christmas present for mail carriers and most other postal employees came from Postmaster General New today in the form of an announcement that no deliveries of ordinary mail would be made Christmas day.

From midnight, Dec. 24 to midnight Dec. 25, all postal operations will be suspended except the maintenance of special delivery and the "relaying" of the mails so that they will be ready when normal delivery is resumed.

"It is realized that this experiment is a great undertaking" said Mr. New "but it is believed that it is in line with the sentiments of the public, if this can be done without too great a loss of service."

"It is confidently hoped that it will succeed, and that our large force of workers in the field may for the first time have the benefit of a real holiday."

### OHIO ASSOCIATION

On Wednesday afternoon November 11th the Ohio people held their first meeting of this season in the Grand Army Hall. About sixty people gathered to exchange friendly greetings, make arrangements and lay plans for the coming year.

They had no program for the occasion. The next regular meeting will be held on Dec. 9th, in the Tourists Club house at the park, when they will nominate officers for the coming year. Eight new members were registered.

—Mary G. Brown, Secretary.

### Meeting of L. L. Mitchell Relief Corps.

L. L. Mitchell Relief Corps No. 12 met in the G. A. R. hall Nov. 12th at 2:00 p. m. with the president in the chair.

Two officers were absent at roll call.

Nettie Wolcott was elected to membership in our order.

National General orders No. 2 and 3 were read by the secretary.

Mabel M. Delidier the Department Inspector will be present at our next meeting to inspect the Corps. Every member should make an effort to be present on that day.

Comrades Holden and DeGraw were ushered in (sent as a committee from the Post), with appreciation for the Halloween luncheon that the Relief Corps served to them a couple of weeks ago.

Forty-four Relief women and three Comrades were present.

—Flora Cox, P. C.

Try a Rhode Island Red Capon for Thanksgiving dinner, better than Turkey. Pecks Poultry Farm, 12th and Main Ave. St. Cloud. 13-11

## Hudson & Essex 6's

See Forest Wright and let him show you how they take the road. He will also tell you about the new low prices and easy terms.

Corner 10th St. and Carolina Ave.

St. Cloud Hudson Essex Co.

Added safety and easier driving are big reasons for the wide popularity of the Better Buick.

Buick's better steering gear (the most expensive type built today) has 5 times the ordinary control surface.

More than 400,000 4-wheel-brake Buicks have proved the superiority of Buick

mechanical 4-wheel-brake design for two winters and two summers.

And Better Buick Controllable Beam Headlights now make night driving safe. They furnish bright light, all the time, without glare in the eyes of oncoming drivers.

Your family and you will feel safer and be safer in the Better Buick!

BUICK MOTOR COMPANY, FLINT, MICHIGAN

### CONSOLIDATED REALTY CO. MOVES TO NEW QUARTERS

On Monday of this week the Consolidated Realty Co. moved from their office on New York avenue to their new modernly equipped offices on the Dixie Highway, opposite the Chamber of Commerce.

That this company has been doing some splendid business is evidenced by having the largest amount of abstract business done by the St. Cloud Abstract Company during the past month.

The members of the Consolidated Realty Co. are Wm. Landis, M. A. Hood, Chas. W. Landis and Archie B. Wigginton and have all been residents of St. Cloud for years and are familiar with locations and values.

### ENTERTAIN IN HONOR OF MRS. BESSIE MORGAN.

Dr. and Mrs. J. D. Chunn entertained in honor of Bessie Morgan at a swimming party, water roast and a theater party Friday and so far that all had a jolly time does not wait tell the story.

Presbyterian Bazaar—sale of Home cooked foods, aprons and fancy work of all kinds at the different booths at Chamber of Commerce Room.

### Cupid's Assistant

"A medium for the dissolution of loneliness," says Mrs. Nellie B. Su U of Elyria, Ohio, new president of the Widow and Widowers' Club of America. "Don't rush—the line forms on the left," says Cupid.

## Stop! Look! Listen!

A lot 50x150 on our Beautiful Lake Front and inside the city limits for only \$3000 and the terms are easy. This is a wonderful homestead and an exceptional investment.

And

We have a fine warehouse site along the railway large enough for any business and priced for immediate sale.

Also

Fine business location on 10th St., east 100x75 only \$18,000 with good terms.

ST. CLOUD TRIBUNE

### LAKE VIEW PARK IS ST. CLOUD'S NEW SUB-DIVISION, LOCATED NEAR BUSINESS CENTER

Surveyors have been at work for the past several days making a plat for the re-sub-division of the property owned by Messrs. I. E. and W. W. Forth and C. S. Dawley, preparing the lots for sale to the public.

The Messrs. Ferrin are from Palm Beach, while Mr. Dawley is a member of the firm of Dawley Bros., realtors of St. Cloud.

Eight of the former big blocks, bounded by Massachusetts avenue on the east and Missouri avenue on the west and Fourth street on the south and Cypress avenue on the north are included in this new re-sub-division. The old plat showed this property as 100 foot lots and the new division sells lots with a fifty foot frontage.

Restrictions as to sales include the following terms:

No lot can be sold to any one not a member of the Caucasian race; no house can be erected under a cost of \$4,000, and buildings must be thirty feet from the front property line, only one building to be erected for each fifty foot front. No business or manufacturing concern can operate in this restricted section without the written consent of the seller, C. S. Dawley.

Sale of lots in this re-sub-division will be made by Dawley Bros., or by any member of the St. Cloud Real

tors Board, according to the restrictions reserved by the owner.

This opens up another fine section of the city and it is said that the lots offered are so that reasonable prices.

### GEORGIA-FLORIDA FRIENDSHIP TOUR BEGINS NOV. 22

Jacksonville, Fla.—Bankers and business men of Georgia, South Carolina and Virginia will start on a Georgia-Florida friendship tour from Augusta, Ga., on November 22. It has been announced here by J. C. Kenworthy, general passenger agent for the Georgia-Florida railroad with offices in Augusta, who has just completed arrangements here for the tour through Florida.

Merchants and bankers in twenty-five cities and towns of Georgia, South Carolina and Virginia are sending representatives, numbering more than 125, the announcement says.

Twelve days will be required to complete the tour. Three days will be spent in Cuba. The party will travel on a special train.

As explained by Mr. Kenworthy, the purpose of the tour is to give the banking and business people of the three states that will be represented in the party, an opportunity to see Florida and the developments that are being accomplished in the state.

N. R. Jett, of Bracksville, Ky. is visiting his brother-in-law, G. A. Reed on North Pennsylvania Avenue.

### TOURIST CLUB HOLDS FIRST MEETING OF SEASON

After the summer's vacation in the north, east and west, once again the tourists coming to the sunny south assembled in the Tourist Club house in the City Park on last Monday with Dr. A. W. Hall in chair. After singing American Rev. L. L. Lockwood offered a prayer.

All were thrilled by singing the Florida song and giving the St. Cloud yell. On Roll call the following states were represented: Maine 4, New Hampshire 3, Vermont 3, Massachusetts 2, Rhode Island 1, Connecticut 4, New York 48, New Jersey 3, Pennsylvania 19, Maryland 1, Washington, D. C. 1, Ohio 25, Indiana 7, Michigan 30, Illinois 10, Arkansas 1, Minnesota 1, Missouri 3, Nebraska 2, Oklahoma 1, Montana 1, California 2, Iowa 17, and Wisconsin 11.

There were all told, two hundred and more.

Rev. Z. H. Smith gave an address of welcome. Mrs. John Phillips gave two readings.

Mrs. McClay played mouth harp accompanied by Mrs. Barber and gave as an encore a monologue "O'Brien", and in response played "Annie Laurie."

Dan Smith, of Michigan, gave a talk on Consumers Power Co., of Battle Creek, Mich., which was interesting and instructive.

Mrs. Lockar presided at the piano. The Pennsylvania people will have charge of the next program, with A. S. McKay as chairman.

Advertise your new goods and sell make it better.

Mrs. W. J. Row and Mrs. Sarah McQuade, of Greensburg Penn., arrived Sunday and are guests of Mr. and Mrs. Kiehl, of Florida Avenue, but they have engaged apartments with Mrs. Krepps, on Pennsylvania Avenue.

This beautiful 8-room home in St. Cloud, just 5 blocks from Dixie Highway, 5 blocks from Church, 4 blocks from School house, can be bought for \$5,000.00. 2 lots, fruit trees, vegetable garden. Apply to T. H. Summers Furniture store.

"Where a Welcome as Genial as the Sunshine Awaits You"

# \$7,500.00 POLICY!

**PAYS \$7,500**

For loss of life by the wrecking or disablement of a railroad passenger car or street, elevated or underground railway car, passenger steamship or steamboat, in or on which insured is traveling as a fare paying passenger.

**PAYS \$1,000**

For loss of life by being struck or knocked down while walking or standing on a public highway (as set forth in policy, or being struck by lightning, cyclone or tornado, collapse of outer walls of building in the burning of any church, theatre, library, school or municipal building, hands, feet or sight, as specified in policy.

**PAYSS \$1,000**

For loss of life by wrecking of public omnibus, taxicab, auto stage, horse drawn or private motor driven vehicle, or passenger elevators, hands, feet or sight, as specified in policy.

**PAYS \$10.00 WEEKLY**

For a period of fifteen weeks for all injuries sustained in the manner described above and as specified in policy.

ALL THE ABOVE SUBJECT TO TERMS OF POLICY ISSUED TO YOU

## Fifty Per Cent Accumulation

Each consecutive renewal of your policy without default in payment of premium will increase the amount of benefits provided for Loss of Life, Sight or Dismemberment sustained in the manner described in Part 2, at the rate of 10 per cent of the original amount until 50 per cent is thus added, and thereafter so long as this policy shall remain in force, the insurance as herein provided shall be for the said original amount in addition to the accumulations.

## Emergency Benefit Registration, Identification and Financial Aid

The company will register the person insured hereunder, and if insured shall, by reason of injury, be physically unable to communicate with relatives or friends and in a condition requiring identification, the company will, upon receipt of message giving your policy number, immediately transmit to such relatives or friends as may be known to it any information respecting the insured and will defray all expenses to put the insured in communication with and in the care of relatives or friends, provided such expense shall not exceed the sum of One Hundred Dollars.

## What We Will Do With Your Money

We will entertain every Saturday morning at the Popular Theatre every child in the "Kiddy Division" of the Chamber of Commerce with such moving picture stars as Wesley Barry, Harold Lloyd, Douglas MacLean, Mary Pickford, and others. The only way a child can get into the Popular Theatre will be by showing their Membership Card. About once each month we will entertain the "Kiddies" with a Party and a Luncheon with games and things that make little hearts light and happy.

We will entertain, promote, finance, and aid the athletic and social activities of the older children from 15 to 20 years of age, who are members of the "Junior Division" of the Chamber of Commerce. For them too will be parties and entertainment galore.

We will give to the Red Cross Roll Call more money than they would get by subscription, and relieve you of the annoyance of further subscriptions.

We will broadcast every Monday night the St. Cloud Orchestral Band from one of the foremost broadcasting stations in Florida. A medium of advertising unparalleled; a way to put St. Cloud before the whole United States.

We will erect highway advertising in the most conspicuous spots on the best highways in the State.

We will carry on a newspaper publicity campaign, advertising St. Cloud in the crowded over-run cities of Florida.

We will maintain a Chamber of Commerce with an Information Bureau, a Traffic Bureau, and a Publicity Department that would be a credit to a city ten times the size of St. Cloud.

## COUNTY FAIRS ARE THE SHOW WINDOWS OF FARMERS

By NATILAN MAYO

Florida Commissioner of Agriculture

If you were to go along the main business street of any town in city and not see a single show window where the goods sold in the store are exhibited to the passer-by, what would you think? Would it not appear to you as a rather singular town, more primitive than you would expect to find were you to examine a buried two thousand years old? The thought of there being no show windows in the business center of a town anywhere in the world today is ridiculous.

The county fairs are the show windows of farmers, practically the only place they can exhibit their wares to the public, and the fairs last for only a few days. Does it not appeal to you as being bad business for farmers to neglect the only opportunity they have for advertising their products?

The present situation in Florida offers the finest opportunity the farmers of any state ever had to advertise to prospective purchasers and immigrants. More people outside of the state will visit the county fairs of Florida this fall than will visit the county fairs in any other state. I hope that both the state and county fairs will be supported as never before in order to present every phase of Florida's agriculture and industries to the honest, earnest seekers after truth who will be within our borders during the next several months.

I cannot conceive of a better way to place funds for local advertising and incidentally it will advertise the state as a whole. The state appropriates no money to support fairs so that the responsibility is thrown entirely upon each community. A friendly rivalry should stimulate the enterprising spirits in each section of the state, and the counties should vie with each other in presenting the best possible exhibit of the products peculiar to each. This will be a question of "to the victor belongs the spoil." The race will be to him who pays the price. The results of advertising in fairs will show in the amount of investments made in the various counties by those who are seeking to make investments in Florida.

Fairs have been called the "time-keepers of progress." They mark the hand of advancement on the dial of time, and show in concrete form the standard of civilization existing; they indicate the point of advancement reached, and the character of the heritage that is to be bequeathed by the present generation to the next.

My hat is off to the prize winners as individual exhibitors, as counties as units, and to the larger fairs of the state.

Mr. Babson discounts "adjustments and reactions" and goes on to say:

"But after these adjustments and reactions have fully taken place, there will be a Florida of tomorrow surpassing in real intrinsic importance, the speculative Florida of today."

"Florida of tomorrow will be built upon the remarkable climate which is the basis of the going-away-winters industry."

"Florida is simply at the threshold of its prosperity. The boom is sound because based on a great and new economic movement, but these very conditions are attracting the unscrupulous."

## cook with GAS from your OWN Gas Plant SKINNER GAS MAKER

Makes it possible to have a cool kitchen and a hot, clean, inexpensive gas—no matter how far you live from the city. Perfect for baking, broiling, cooking. Saves time, fuel, light and stove burners and a clear blue flame is ready. Turn low for simmering or high to your want. There's a Skinner Gas Maker for every need—homes, apartment houses, hotels, restaurants. Write for booklet, "The Home Convenience." SKINNER MACHINERY CO., 36 Broadway, Dunedin, Fla.

palous and make it very necessary that you deal with very reputable people or first visit the state and personally look over the field."

## THE FLORIDA BOOM STAYS PERMANENTLY

Speaking of real estate, and who hasn't now days, I often am asked "how long will the boom last?" Frankly I am not ready to concede that we are experiencing a "boom". Florida's development is justified and I believe we are just making a beginning. Remember, that in all the world there is only one Florida, such other sections of the globe as might lay claim to equal advantages with us are so remote in the great centers of population as to make them practically out of the running. California is perhaps our nearest competition, but even here we have a decided advantage. Hawaii—a charming spot but isolated; Italy and other European sections with climatic advantages can never our lack of advantages, our inadequate road systems and poor ground, but this is all changed today. During the next few years you will see Florida advertised as no state was ever advertised before. Our railroads have seen the vision and are exerting every effort to meet the situation; double tracks and better schedules are being supplied, new roads are preparing to enter the state. Our highway system is a credit to us today but will not compare with those of tomorrow. Big men and big money are at work today shaping the wonderful Florida of the future.

We must however keep faith with those who are coming to locate and invest with us. Stick to the truth in our statements and our literature, keep our promises and see to it that "service" balances "profit" in our transactions. Where possible to do so support home industries, protect our agricultural resources with a no-france law, drive out the scrub cow and the ramblin' stand back of the man with the plow for every furrow he turns help create a stronger foundation for our values. Encourage and foster the protection of our native fish and game, and last but not least believe in your town, your county and your state. Take a personal interest in civic affairs and do your full share to make your part of the world a better place in which to live. Do these things and the "boom" will be everlasting.—Florida Grower.

## Our Coast Line

It is a common statement that Florida has a salt water coast line of over a thousand miles. According to the report of U. S. Coast and Geodetic Survey the total tidal coast line of Florida is 8,751 miles, 1221 on the Atlantic ocean and 2,530 on the Gulf of Mexico. This is more than that of any other state and about one-seventh of the entire United States.

**WRIGLEY'S**  
makes your food do you more good.  
Note how it relieves that stuffy feeling after hearty eating. Sweetens the breath, removes food particles from the teeth, gives new vigor to tired nerves. Comes to you fresh, clean and full-flavored.

## Penetrates Through the Skin Clear to the Bone

Liniment Called Mexican Mustang has Strange Power

A lame back, a strained muscle or aching joints will stop rubbing and become limber and natural if you will apply a little of that old-fashioned liniment known as Mexican Mustang. Druggists and other authorities agree that its great power to relieve pain is due to its magical penetrating action—it goes through the outer layers of the skin without burning or a trace of blister, right to the sore spot. It is not like the smarting, stinging, burning mixtures usually known as liniments. No matter if all other outside applications have failed, you will not be disappointed with Mexican Mustang Liniment—it also breaks out, burns and sores and so makes a valuable remedy to have in the home at all times. All druggists and wholesalers sell Mustang Liniment or can get it for you.

## NERVES ALL UNSTRUNG

St. Cloud Folks Should Find the Cause and Correct It

Are you all worn out? Feel tired, nervous, half-sick? Do you have a constant headache; sharp twinges of pain, too, with dizzy spells and annoying urinary disorders? Then there's cause for worry and more cause to give your weakened kidneys prompt help. Use Doan's Pills—a stimulant diuretic to the kidneys. St. Cloud folks recommend Doan's for just such troubles. John Wilkes, retired farmer, Massachusetts Avenue, St. Cloud, says: "My kidneys got out of order and nights I had to get up every hour to pass the kidney secretions which were scanty and burned in passage. I became nervous and excited at times. Doan's Pills from Martine's Drug Store gave me relief."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Wilkes had. Foster-McIlburn Co., Mfrs. Buffalo, N. Y.

In Circuit Court for the Seventeenth Judicial Circuit of the State of Florida in and for Osceola County, in Chancery, C. W. Griffin, Complainant, versus, Alex Sabel, et al. Defendants. Suit to Quiet Title. Order for Publication. THE STATE OF FLORIDA TO: Alex Sabel, if he be living, and if he be dead, then THE STATE OF FLORIDA TO: all heirs, devisees, grantees and other claimants having or claiming any interest in the lands in this suit involved, under said Alex Sabel, deceased, and also THE STATE OF FLORIDA TO: all other parties having or claiming any interest in the lands in this suit involved, under said named defendant, or otherwise. YOU AND EACH OF YOU ARE HEREBY COMMANDED to appear in the above entitled cause on the seventh day of December, A. D. 1925. The above entitled suit is a suit to quiet the title to the following described property located in Osceola County, Florida, to-wit: Lot One in Block Seven of Robinson's Addition to Kissimmee City, said Addition being and situated in the Southwest quarter of the Northwest quarter of Section twenty-two, Township twenty-five, South, Range twenty-nine East. Said lot being more particularly described as follows, to-wit: Beginning at a post standing at the Northeast corner of Block Seven of Robinson's Survey of Robinson's Brothers Addition to the Town of Kissimmee City. Said post being situated 31 feet West of the East line of the Southwest quarter of the Northwest quarter of Section 22, Township 25 South, Range 29 East, and 200 feet North of the South line thereof, running from thence West on the South line of Street one hundred forty-three feet, thence South fifty feet, thence Eastwardly one hundred forty-four and forty-one hundredths (144 & 41/100) feet to a stake standing on the West line of a street 96 feet in width; said stake being situated seventy feet South of the first mentioned place of beginning thence North on the West line of said street seventy feet to the place of beginning containing 3280 square feet; also the following additional parcel in Block 7 of said Robinson's Addition to Kissimmee City, as follows, to-wit: Commencing on the West line of Main Street at a stake standing 33 feet west of the

East line of the Southwest quarter of the Northwest quarter of Section 22, Township 25 South, Range 29 East, and 100 feet North of the South line of said land said stake being at the Southeast corner of said Lot One in Block Seven of Robinson's Addition to said Town of Kissimmee City. Running from thence West and parallel to the South line of said Addition 143 feet thence North 20 feet to the Southwest corner of said Lot 1 in Block 7 thence Eastward to the place of beginning 144.4 feet more or less. The last described tract of land being shown upon the plat of Robinson's Addition as Lot One and One half (1 1/2) of Block Seven. The said Block 7 is situated in and is a part of the Southwest quarter of the Northwest quarter of Section 22, Township 25 South of Range 29 East of Tallahassee Meridian.

WITNESS the Honorable Frank A. Smith, as Judge of the above Court, and my name as Clerk thereof, and the seal of said Court at Kissimmee, Florida, on this 4th day of November, A. D. 1925.

J. L. OVERTRETT  
Clerk Circuit Court,

# Safe From FIRE

Valuable papers, Bonds Securities and similarly important documents—kept in the home—are in constant danger of destruction by fire. For Fate, in dealing out flames, makes no choice.

Better to put such valuables beyond the reach of destructive elements. Somewhere where you have "peace of mind" that they're safe from possible loss or damage and where you can get them when you need them.

That "somewhere" is in a—

## KISSIMMEE IS TO HAVE TEN STORY HOTEL ACCORDING TO ANNOUNCEMENT MADE FRIDAY

According to announcements made in the Daily Gazette of last Friday, Kissimmee is to have a ten-story hotel at an early date. Final arrangements having been completed last Friday at a conference held in that city between the Farmer-Carson Company and H. N. Rosebaum, financier of New York City, and work on the new ten-story hotel and apartment building will be started within a few days. The report continues:

Contracts assuring the erection of the new structure of 200 rooms, were signed this morning, as it was stipulated that all necessary funds for the construction of the building would be available. Mr. Rosebaum guarantees available funds within 90 days, when all preliminary work will be finished and the actual construction contracts let.

At a committee meeting of local residents a short time ago, \$20,000 was raised in twenty minutes to guarantee Kissimmee's share in the structure. The men who bought shares to this amount were: J. Wade Tucker, L. E. Penn, Joseph Dyson, George

Pearson, W. A. White, John Holloway, B. H. Bostain, Sam Luffer, C. A. Blair, Pat Johnston, Nelson Realty Company, and N. C. Bryan.

H. N. Rosebaum, of 40 Exchange Place, New York City, is the most progressive financier, the head of his own company a financing corporation. For several months the Farmer-Carson Company, of this city, have been in touch with Mr. Rosebaum, until today when they were delighted to announce that final arrangements for the funding of the hotel were made. Mr. Rosebaum left Kissimmee today for Sarasota to arrange for the funding of a hotel there.

At today's meeting besides the local men, those present included the hotel architect, Fred N. Greider, and the contractor, Mr. Kelley, both of Philadelphia, besides H. N. Rosebaum and Col. F. M. Oliver, hotel manager, of Savannah, Ga.

Members of the committee appointed to complete the deal are: J. Wade Tucker, chairman; L. E. Penn, Pat Johnston, W. A. White and Joseph Dyson.

## THE FOOTBALL SEASON TO CEASE SOON

St. Cloud has two more football games before the close of the season, a game with Winter Haven tomorrow, and a game in St. Cloud. The St. Cloud game is to be played with Melbourne on Thanksgiving day at 5:30 p. m. This will be your last chance of seeing a game this season so come out and help the St. Cloud team to victory. Tickets will be on sale at both drug stores.

### WINTER HAVEN GAME

St. Cloud will clash with Winter Haven at Winter Haven tomorrow. The result of the Kissimmee-Winter Haven game was a 6 to 6 tie. This game shows a promise of being interesting since St. Cloud defeated Kissimmee 6 to 0. It always encourages the team to see home folks on the side line, so be sure to join us in a trip to Winter Haven.

### WAUCHULA

Some of you may know what St. Cloud played a football game at Wauchula last Friday. On this date St. Cloud was rolled in the dust for a 41 to 0 defeat. St. Cloud team was clearly out-classed and out weighed. By the end of the first half one of St. Cloud's half backs and two tackles were out of the game through injuries. This loss of first string men weakened the defense to such an extent that the second half was a walk away. The St. Cloud boys promise a better game with Wauchula next year.

### "THE DRESSMAKER FROM PARIS" AT POPULAR THEATRE

"The Dressmaker from Paris," a Paramount picture featuring Luntz Joy and Ernest Torrence, which shows at the Popular Theatre Tuesday, is a story of Fifi, little French midinette who becomes Paris' foremost fashion designer.

The story opens with the accidental meeting of Fifi and Billy Brent, American army officer. They fall in love, only to have Brent ordered to the front.

The scene shifts, Brent is now junior partner in the Emporium, a department store in Clanton, Ill., owned by Torrence, playing Angus McGregor. Brent's ideas on selling are radically different from those of McGregor, and he sends for the famous Madame Louise to stage a fashion show in the Emporium and bolster up trade.

Imagine, Brent when Fifi puts in an appearance. He is glad enough to see her, to be sure, but misses things all up trying to explain to her that he is engaged to Joan, McGregor's daughter. Both Billy and Fifi manage to misunderstand each other perfectly, and it's a truly laughable situation, for every one, that is, but Brent and Fifi.

As Madame Louise, Fifi has acquired the reputation of being a notorious woman (all this being press agent bunk, however). Two of her manikins—there are fourteen of them in the picture, played by fourteen International Beauty Models, selected by Paramount after a world-wide search—are innocently involved in a road house scandal, and when the papers come out with an account of Madame Louise's "past" the townspeople rise up in arms against this "foreign woman" and demand that she and her models be ousted from Clanton.

"The Dressmaker," however, straightens things out in the end, though almost at the cost of her good name.

"The Dressmaker from Paris" was written directly for the screen by Adelaide Heilbron and Howard Hawks and adapted by Adelaide Heilbron.

## Thanksgiving Proclamation

By the President of the United States

The season approaches when, in accordance with a long-established and respected custom, a day is set apart to give thanks to Almighty God for the manifold blessings which His gracious and benevolent providence has bestowed upon us as a nation and as individuals.

We have been brought with safety and honor through another year, and through the generosity of nature, He has blessed us with resources whose potentiality in wealth is almost incalculable; we are at peace at home and abroad; the public health is good; we have been undisturbed by pestilence or great catastrophe; our harvests and our industries have been rich in productivity; our commerce spreads over the whole world, and labor has been well rewarded for its remunerative service.

As we have grown and prospered in material things, so, also, should we progress in moral and spiritual things. We are a God-fearing people, who should set ourselves against evil and strive for righteousness in living, and in observing the Golden Rule we should from our abundance help and serve those less fortunately placed. We should show gratitude to God for His many favors.

Now, therefore, I, Calvin Coolidge, president of the United States, do hereby set apart Thursday, the twenty-sixth day of November, next, as a general day of thanksgiving and prayer, and I recommend that on that day the people shall cease from their work and in their homes or in their accustomed places of worship devoutly give thanks to the Almighty for the many and great blessings they have received, and to seek His guidance, that they may deserve a continuance of His favor.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington, this twenty-sixth day of October in the Year of Our Lord, one thousand nine hundred and twenty-five, and of the Independence of the United States of America the one hundred and fiftieth.

(Signed) CALVIN COOLIDGE.

## FLORIDA WILL BE UNIO N'S RICHEST STATE, RICHARD EDMONDS BELEIVES

By RICHARD H. EDMONDS

"Florida will, in any opinion, be the richest state in the Union" was the statement made to me in a letter received more than ten years ago from a man who would have been recognized as one of the greatest railroad men of the country.

Railroad geniuses such as Flager, Plant, Warfield, Walter and many others, have always been compelled to study with an intensity that no one else gives to such subjects the future of any territory in which they operate or into which they intend to build. Henry M. Flager was one of the most far-seeing, broad-visioned business men this country has produced. He began his development work in Florida when that state was hardly known to the public at large. Some years ago, in discussing with him the reasons why he had centered his activities in Florida, Mr. Flager, who was then one of the largest stockholders of the Standard Oil Company, said: "I think I could have been the second richest man in the world if I had stayed to remain in New York, but I thought I saw an opportunity for good of humanity, by the creation of but as to whether the line could be

great pleasure and health resorts and limitless agricultural opportunities."

Henry M. Flager's Pioneer Work.

It was generally understood before Mr. Flager's death that he had invested about \$75,000,000 of his own money in building the Florida East Coast Railroad and the hotels operated by his system; the hotels having been built to draw travel in order to justify the building of the railroad. Twelve or fifteen years ago Mr. Flager told me that the business of the road had already outgrown its facilities, and that but for the fact that he was making large extensions and that his officers thought they could do without double-tracking the road at that time, he would have begun the double-tracking of the entire line.

His vision was indicated when the Panama Canal was decided upon. Immediately, so he told me, he planned to build from Miami to Key West what is known as Over-the-Sea Railroad. They pronounced it feasible but to expensive to justify its construction. The story in Florida I saw an opportunity for good of humanity, by the creation of but as to whether the line could be

built or not; and being assured that it could be built, he ordered work started.

While traveling one day over the Key West extension, with Mr. Flager, Henry Walters, chairman of the Atlantic Coast Line, and Mr. George W. Perkins, then a partner of J. P. Morgan & Co., all of them expressed their amazement at what had been accomplished. Mr. Perkins said to me: "When Mr. Flager projected this extension his friends regarded it as chimerical in the extreme." "No banking house in the world," said he, "would have dared to undertake such an enterprise; but now any banking house in the world would be glad to be identified with it." On that trip a business man of Miami said: Mr. Flager has done a great injustice to Miami and to those of us who have settled there, because we thought this would be the terminus of the line; but now that Mr. Flager is going on to Key West, Miami will inevitably die." That indicates how little some people are able to foresee the future.

The double-tracking of the entire line from Jacksonville to Miami is under way. A new bridge across the St. John's river at Jacksonville, costing \$2,000,000, is under construction. That road has been doing more business in midsummer than during the most crowded period of last winter. One of the most important features of construction work under way by the East Coast is the cut-off of thirty miles from St. Augustine to Hunnell, which will save about twenty miles in the trip southward to Daytona, Miami, and other places. This road is also pursuing its plans for constructing an extension from Okeechobee southeastward around Okeechobee Lake, via Canal Point, to Hialeah and Larkin, which are near Miami, and making connection there with the main line. The double-tracking under way and the new construction work will to some extent relieve the tension on the system, but the indications are that every facility of the road, even when these things have been completed, will be required to take care of the traffic.

### Other Railroad Enterprises

President Warfield of the Seaboard Air Line, has long been planning various extensions in Florida, which could not, however, be financed until last year. After being turned down by many banking houses, he conceived the idea of buying at a low price 100,000 acres of land through which his projected line to West Palm Beach would run. This land was put into a company and a portion of stock given to the buyers of the bonds of a \$7,000,000 Seaboard issue floated by Dillon, Read & Co. The price of these bonds based on the price of the land, increased from January 1, when they were selling at 102 7/8, up to 107 1/2 a few weeks ago, and with slight fluctuations range around 175 to 182.

In the shortest time in railroad history that such a line was ever constructed, so far as can be learned, the Seaboard built a 204-mile extension last year to West Palm Beach and opened it to traffic at the time promised. From the very beginning it was overcrowded with business. Since then President Warfield has financed a bond issue of \$25,000,000, \$7,000,000 of which will be used to redeem last year's issue and the remainder will be used for new construction and extension in Florida.

That road recently acquired a 133-mile line connecting with the Seaboard at Plant City and extending to South Boca Grande, where it will have superior harbor locations on the lower gulf. The road is also preparing to build 217 miles of new construction, including a 68-mile line from West Palm Beach to Miami and a connection from near Avon Park southwest to Fort Myers, and another connection from Arcadia, Fort Ogden or Venice, to Fort Myers and thence to Naples. Instead of stopping at West Palm Beach, as had been intended, the Seaboard is now being pushed on to Miami and it is understood will go on to Homestead and Miami City, some distance below Miami.

The Atlantic Coast Line, in order to meet the increase of traffic which its officials a few years ago saw ahead of them, has been rapidly double-tracking its entire system from Washington to Jacksonville. It is now making excavations in Virginia.

Perhaps few movements in railroad circles relating to Florida are more significant than the recent decision of the St. Louis & San Francisco Railroad Company to build 143 miles from Kinbrough, Ala., to Pensacola. That road is also surveying from a point on the Birmingham division, preliminary to the construction of a connecting link of 125 to 150 miles to reach the Gulf of Mex-

## This Week

By Arthur Brisbane

### NO THIRD TERM. 8 HOURS IN 45 MINUTES. FAITH AND DISEASE.

James Hamilton Lewis, always picturesque but sometimes inaccurate, says the Republican nomination fight in 1916 will be between Secretary Hoover and Vice-President Dawes. He says the "two term tradition established by Washington will not break down."

Mr. Lewis is just 100 per cent wrong in two ways. There isn't any question of a two term tradition.

Mr. Coolidge has been elected by the people. ONCE, and it is the election, not the accident of a Presidential death, that counts. Unless we have very bad times in America, between now and 1928, and we shall NOT have them, the nomination an election of President Coolidge are as certain as anything can be.

Moving pictures compress a great deal of work and effort into a short period of "seeing."

Will Hays says the average eight-hour day of film work, actors, actresses, directors, working hard for eight hours, produce THREE-QUARTERS OF A MINUTE of actual film display.

In one big picture, soon to be released, a sixty-five acre field was covered with a "net" costing \$300,000, and it represented in all just six minutes of moving picture entertainment.

This compressing of hard work is not new. Montaigne devoted more than twenty years of intense research and study to the production of his two small volumes, "The Spirit of Laws."

Darwin, over a period of thirty years, gathered information about earthworms and their contribution to the earth's fertility, that you may read in a few moments.

Fortunately, and most important, moving pictures when the best use is made of them will compress education, as they now compress action.

It will be literally possible through moving pictures to teach a child in three-quarters of an hour, and to teach well, thoroughly and permanently, more than the child can learn under proper methods in a dozen school days of eight hours, spent indoors at a time when the child ought to be out in the sunshine.

In politics we used to fight about slavery, then about tariff and the full dinner pail. Those issues are worn out, and as Mr. Robert Barry says, political fights now are centered on alcohol and religion. Those issues will pass away, but men always will have something to divide them.

The reverend Selden T. Delany says faith helps disease, as it undoubtedly does, and gives a scientific explanation. Faith inspires beneficial emotions; they cause in the body "chemical changes that banish disease."

The Reverend Francis J. Hall connects suffering with the will of God, and says sickness is sometimes good for you. When people are well, they lack useful warnings that sickness gives. Science and religion are drawing together.

Conductors and trainmen in the West want more money, an increase of \$25,000,000 a year. To say it will horrify the conservative mind, yet if the increase in pay be granted conservatives and everybody else will be better off. All that the big man can possibly get is what the little man has to spend.

Let him who thinks low wages mean prosperity for the big man start something in China. He will find men and women to work for a few cents a day, but he won't build any great fortune. Good wages are to a nation's prosperity, from top to bottom, what irrigation is to the nation's crops.

### The Early Bird Gets.

"My wife saved us from being robbed last night."  
"You don't say, how?"  
"She had taken the money out of my trousers before the burglar got in."

Penacola, with one of the finest harbors in America, will, when it gets the Frisco system, have two great railroads, that and the Louisville & Nashville, in competition for the development of traffic through that port. The result will be a tremendous stimulation of the whole up-

### LOOKS LIKE A BIG THANKSGIVING

By A. B. CHAPIN

## MIAMI CAPITALISTS PREDICTS "WONDERFUL GROWTH" FOR STATE OF FLORIDA IN FUTURE

That Florida is to have a wonderful growth in the future; that the present with speculation will die down but without affecting real values, was the opinion expressed today by H. W. Batchelor, capitalist and sportsman, formerly of New York but now located in Miami, who interviewed at the Windsor hotel in Jacksonville, Florida.

Mr. Batchelor has long been identified with financial giants in the east and acting as the representative of a group of wealthy Philadelphia and New York friends he, last winter, purchased White Springs with a large parcel of real estate. The chief thought in buying the property, Mr. Batchelor said, was in developing a place where a few people might have a good small town in which to spend the winter. White Springs, said Mr. Batchelor, has long been noted for its medicinal properties and with the attractiveness of the town should be a wonderful resort.

### Prize Beaches

"I have lived quite a bit abroad," stated Mr. Batchelor, "and I have never, not even on the famous coast of the Mediterranean, seen as wonderful beaches as are at the Florida Coast cities. There is no question that the future holds for them a marvelous growth. Personally, I think the idea of getting industries for Miami is ridiculous, they need nothing except their beach and climate and the location of the city totally unfit it for any industrial work of magnitude."

Questioned about his opinion of Florida as a whole in relation to the present influx of investors, Mr. Batchelor shot back another question.

"How many people," he said, "who go into the market and buy, say, a hundred shares of steel stock know anything about the business or how it is run except that they want to make some money out of speculation? That holds true of the present speculation in real estate and some of them are bound to get caught. Only there is a difference that in the stock market the man is content to take his losses and accept them, but in real estate there will be howling that will be detrimental to the interest of the state."

### More Money Here

"It is ridiculous to think that with all the money that has been invested in the state—you are still getting

it, money is pouring into this town in quantities that one can hardly imagine—there can be any serious slump. The state is going to prosper and though the agriculture isn't now the basis for such large growth it will improve as time goes on and assist in the stabilizing of conditions."

The company that is developing White Springs, Mr. Batchelor said, has no desire to rush through a large amount of promotion work and is developing it slowly. The concern, The White Springs Investment company, is considering the building of a hotel at the place, but with the difficulty of getting the owners together—some of them being in Europe some hunting in Canada and at other widely separated spots—has kept the company, Batchelor said, from acting on the matter to date.

Mr. Batchelor and J. S. Blaine, of Miami, re-owners of the J. S. Blaine Realty company of Miami. The former has been in Florida fifteen months. "I am almost a native son now," said Batchelor.

## FLORIDA OF TOMORROW SUBJECT OF ROGER BARBON'S ARTICLE

WASHINGTON, Oct. 24—One of the biggest send-offs ever given Florida comes from the pen of Roger W. Barbon, the most outstanding business forecaster in America, who contributed his views of the future of the Sunshine State to the Florida issue of the American Motorist, the official publication of the American Automobile Association.

The October issue of the national motoring magazine is devoted entirely to the exploitation of the present and the future of Florida and Mr. Barbon's predictions are evoking national interest and widespread comment.

"The Florida of tomorrow," said Mr. Barbon, "is being founded by two vast industries. You think I am going to mention citrus fruit or pecans, truck growing or cigar-making, lumber or naval stores. I count all these activities in the total, but in my judgment they are not paramount."

"The industries most essential to Florida's future are the following:

- "1. The automobile industry.
- "2. The going-away-winters industry."

Averting your old goods and move them.

### West Heard From

Gov. Mrs. Nellie Ross, Wyoming's dynamic leader, made a special trip to see Pres. Coolidge and protested granting concessions in Colorado River Basin giving private interests control of water power. Wyoming and other Basin State Governors will appear before Federal Power Commission in public's interest.

### FLORIDA TAXING LAWS

Much has been written about Florida's taxing laws, because they are attractive to individuals and corporations alike; they are fair; that is the story in brief.

Money centers in every locality of the nation are interested in Florida because of the state's inclination to deal squarely with the taxpayer. Advantages for individuals and corporations are found in the following laws.

First: No State Income Tax (Constitutionally prohibited).

Second: No State Inheritance Tax (Constitutionally prohibited).

Third: No Annual Corporation Franchise Tax.

Fourth: No General Direct Sales Tax.

Sixth: No business income or Gross Sales Tax.

Seventh: No Mortgage Tax.

Eighth: No Severance Tax.

Ninth: Constitutional Limitation of Five Mill Tax on Intangibles if ever taxed.

Aside from these, Florida statutes embrace many other laws directly affecting resources and money in the most advantageous way.

Groveland—City votes \$205,000 for new city hall, waterworks system, park and additional paving.

## 32 GOVERNORS IN FLORIDA HISTORY

Thirty-two Governors have served Florida since its territorial days to the present, seven between 1821 and 1845, the year when the territory was admitted to statehood. Of this list according to records at Tallahassee, only one died in office, Osceola B. Hart, who served from inauguration in 1872 for a period of about one year.

An interesting story is revealed in the perusal of these records of those whom the state honored by election to high office. For instance, in this roll of the favored, several names stand out in more than ordinary prominence.

Among these names that of William D. Bloxham leads the list of men reportedly honored for different offices. He was elected secretary of state in 1877 and served his term ending in 1880. Next the people of Florida honored by election as governor, in 1881 and he served in his office the four-year term, which was completed in 1885. Five years later he was elected comptroller and served in that office until 1897.

In the roll of secretaries of state the name Crawford stands out prominently. John L. Crawford having been elected to that office in 1883 and serving until 1902. He was succeeded by his son, H. Clay Crawford, the present secretary, in 1902. This office has been in the capable hands of Crawfords, father and son, for forty-two years. The first Crawford served twenty-one years and the present secretary is now rounding out his twenty-first year. In addition H. Clay Crawford, present secretary, served in the secretary's office for many years during his father's administration.

John C. Luning, now state treasurer, also served as commissioner of agriculture. W. V. Knott, former treasurer, also served as comptroller.

### Governors of Florida Territorial

Andrew Jackson — July 1821, to 1822.

William Duval—1822 to 1834.

John H. Eaton—1834 to 1836.

Richard K. Call—1836 to 1839.

Robert Raymond Reed—1839 to 1844.

Richard K. Call—1844 to 1844.

John Branch—1844 to 1845.

### State

William D. Moseley—1845 to 1849.

Thomas Brown—1849 to 1853.

James R. Broome—1853 to 1857.

Madison S. Perry—1857 to 1901.

John Milton—1861 to 1865.

William Marvin—1865 to 1866.

David S. Walker—1866 to 1868.

Harrison Reed—1868 to 1872.

Samuel T. Day—Acting, during impeachment proceedings against Governor Reed, 1872.

Osceola B. Hart—1872 to 1873 (died in office).

Marcellus L. Stearns—(Acting, one to November), 1873.

Marcellus L. Stearns—1873 to 1877.

George F. Drew—1877 to 1881.

Edward A. Perry—1881 to 1889.

Francis P. Fleming—1889 to 1893.

Henry L. Hitchell—1893 to 1897.

William D. Bloxham—1897 to 1901.

W. S. Jennings—1901 to 1905.

N. B. Broward—1905 to 1909.

Albert W. Gilchrist—1909 to 1913.

Park Trammell—1913 to 1917.

Kidney J. Cast—1917 to 1921.

Cary A. Hardee—1921 to 1925.

John W. Martin—1925—.

### No Need of Alarm

The Tampa Tribune in a timely editorial says among other things that "Some of the civic and commercial organizations in Florida which have been doing a great work should not become unduly alarmed over the ravings of youngsters, just breaking into the newspaper profession, or over the interviews given out at wayside points away from here by those who failed to reap a harvest overnight. In a few particular instances these thrust at Florida may be harmful; but in a general sense they will not be harmful. Let them rave."

### TELEPHONE CONCERNS CONSOLIDATE IN ONE BIG SYSTEM

A transaction of interest to thousands of telephone users in Florida, and one of importance in the development of a large section of the state occurred this week when a charter was issued to the Florida Telephone Corporation with authorized capital of one million five hundred dollars and paid up capital of six hundred thousand dollars.

This company is a consolidation of all of the telephone properties owned by Otto Wettstein Jr., of Orlando, and operated under the names: Orange County Telephone Company, Lake County Telephone Company, Osceola County Telephone Company, Pasco County Telephone Company,

Sumter County Telephone Company, Citrus County Telephone Company and the Florida Telephone Company operating in Swaine, Hamilton, Lafayette, Alachua, Union and Levy Counties.

The territory covered by this consolidation extends from Jasper, within twenty miles of the Georgia line to Kissimmee and St. Cloud, a distance of over two hundred miles through the best section of Florida with a population in excess of one hundred thousand. The company operates exchanges in thirty one towns in twelve counties together with hundreds of miles of local toll lines connecting its exchanges, and has connection with the long distance lines of the Bell company to points outside its territory.

Mr. Wettstein will continue at the head of the consolidated company and associated with him on the Board of Directors are some of the most

prominent bankers and business men in the territory served. The personnel of the Board is as follows: Otto Wettstein Jr., Orlando, President; E. E. Edge, Ocala, Vice President; G. G. Ware, Leesburg, Vice President; H. C. Duncan, Tavares, Secretary; R. E. Wettstein, Leesburg, Treasurer. Directors: R. F. DeVoe, New York City, W. M. Davis, Orlando, A. M. Crittenden, Orlando, G. T. Smith, Winter Garden and E. V. Cartledge, Mount Dora.

R. F. DeVoe and Company, bankers, of New York City, have purchased four hundred thousand dollars of bonds, two hundred thousand dollars of preferred stock and a block of the common stock.

In an interview, Mr. Wettstein said: "The rapid growth and development of the territory occupied by our system has created a demand for telephone service, both local and long distance, beyond all precedent. We have had for a dozen exchanges where our facilities are entirely exhausted and the plants will have to be enlarged before we can fill the many applications for service. Heretofore we have been able to finance our extensions and improvements by the sale of bonds to local capital, but the needs are now so heavy that we are compelled to go to the larger money markets to obtain the required capital. Our New York associates agree to take all the securities we offer them, but one of the main objects in opening our business to the public is to eventually have our customers and employees financially interested in the company.

"This consolidation and financing will enable us, not only to meet promptly all demands for new business, but to improve the physical condition of our properties so that the best of service can be rendered at all points. The high character of the local men associated with me in this proposition and their proven ability to successfully handle large enterprises, together with financial strength of our New York associates, places this new company in a much better position to serve the public than I have ever been able to do heretofore within my own limited resources."

### "Small Town Stuff"

Under this heading the Wauchula Advocate has a most readable editorial declaring among other things that no man should ever be ashamed of the fact that he lives in a small town. The man who lives in a small town shares blessings that a "city chap" knows very little about, and would appreciate highly if he did. Think over some of the differences between the big city and small town.

### FLORIDA IS THE CHIEF SOURCE OF ALL SPONGES

The sponge fisheries of Florida originated in 1852 when it was discovered sponges growing in Florida waters were equal to those of the Mediterranean. The sponge had been nearly fished out in that sea.

Key West took up the sponge fisheries and led in the business, though not the locality. Apalachicola and St. Marks took up the fisheries about the year 1870, and finally a settlement in what is now Tarpon Springs, 30 miles north of St. Petersburg, was found to be in the neighborhood of particularly rich sponge reefs. The industry is carried on by Greeks, who, for the most part, live in "Little Athens," near the Sponge Exchange.

The Sponge Exchange at Tarpon Springs is the only exchange in the United States and the largest in the world. The annual business runs in to nearly \$1,000,000.

The constant fishing for this peculiar product of the sea depleted the beds and threatened eventual loss of this source of revenue, but it has been found that sponge culture is feasible, and pieces are planted in the depths suitable for each of the many kinds, for while some are found only in the shallow waters, others are to be sought for only at greater depths. The fishing is done at depths

varying from 10 feet to 120 feet. Small schooners go out 10 to 30 miles into the Gulf and each carries a diver or two, who don diving helmets and go down into the water to the bottom and walk along in search for sponges. They are pulled up the rocks with a hook and put into a net bag the diver carries with him. The sponge as brought from the sea is quite different in appearance from the sponge of commerce, having to go through a number of processes to rid it of the animal matter it contains.

### Peanuts

Of twelve states engaged commercially in the production of peanuts Florida ranks fifth with a yield last year of 54,824,000 bushels.

### PRIZE STORY

The stern school principal frowned over his glasses at the two girlish figures before him. They must be twins, they looked alike, acted and dressed the same. Each was bobbed of hair and both were dressed in pink crepe frocks that reached—not quite to their knees. And what is your name, he asked, indicating the child on the left. Slowly he wrote it down, as she spoke. And what is your twin sister's name? Sir, spoke the other in a husky voice? I AM THIS CHILD'S MOTHER.

### NOTICE IN CITY PAPER

Appear smart? City people going to the country should take along one of our illustrated animal books, so they can identify the horses, cows and pigs.

Heals Sores, Cuts, Burns Called Mexican Mustang Liniment

No matter how long you have suffered, or how severe the pain, you can get rid of the agony without dosing, and without taking powerful drugs into your system.

Liniment is now a sensation to all in the famous Mexican Mustang Liniment. Its great penetrating power is nothing short of marvelous and wherever used, nothing has been found to take its place. It should be applied to the surface of the skin opposite the seat of pain and gently rubbed. There is no sense of smarting or burning like our modern liniments produce—but almost in a jiffy the pain goes—stiffness and sore muscles become limber and flexible. Every household should keep this remarkable preparation on hand for quick use when emergency arises—it brings results when everything else fails. Rheumatic and whooping cold, Malaria, Chills and fever get it for you.

## FLORIDA WILL BE UNION'S RICHEST STATE

Continued from Page Thirteen

per part of Florida, generally known as West Florida, which is apparently destined to have a growth akin to that of South Florida.

The Georgia & Florida Railroad now running from Augusta, Ga., to Madison, Fla., will be extended northward to Cresco, S. C., where it will connect with the Seaboard system and through that with the Clinchfield Railroad, across the mountains of Carolina to the west, thus opening up a new line of travel through Georgia to Florida. Negotiations are now under way for the extension of that line from Madison to one or more leading points on the Gulf in the neighborhood of Tampa.

There are well-founded rumors that another road is to be built down the west coast by western interests and that it may possibly in some way be operated by the Illinois Central, although President Markham has advised me that the Illinois Central is not projecting any Florida line.

A good many other railroad enterprises and extensions are being planned for Florida, some of which will be carried out. Railroad construction there is more active and on a much larger scale than in any other state of the Union; and yet so great is the volume of business offered these roads that it is impossible for them to handle it promptly, and from time to time many embargoes are issued against all freight except that of the most perishable kind. It is fully recognized by the railroad officials that they will have to face a lack of carrying people into Florida this winter and out of Florida in the spring greater than the railroads at any other state have ever had to meet. The highways running from the North and the South have for months been black with automobiles Florida bound. The number is so great that I dare not quote the figures given, because it seems almost impossible to conceive that so many cars have left other sections and gone into one Southern state. For months the railroads leading to Florida have been crowded, likewise the steamship lines; and embargoes on both are being made from six weeks to two months or more in advance.

The extent of this movement, however, is so great that there is a definite plan under way on the part of Far Western semiarid states to make a tremendous fight in behalf of more federal money for irrigation work in order to stem the tide of people moving from that region and from the Central West into Florida, Texas and other parts of the South. We are really beginning to see a population movement in extent surpassing anything, so far as I can learn ever before recorded in this or any other country. It is claimed that Florida will this winter have two million tourists.

### Coast Steamship Facilities

The activity in railroad work to take care of Florida traffic is almost matched by what the steamship lines from New York, Philadelphia, and Baltimore and other cities are doing to provide increased facilities for handling this business. From the Pacific Coast there has recently been brought the fastest and finest coastwise steamship to America. She is advertised to make the trip of about 1,100 miles, from New York to Miami, in forty-eight hours. The Merchants and Miners Transportation Company running steamers from Baltimore and Philadelphia are having three steamships, costing \$1,300,000 each, built at Newport News, Va., and while they cannot be completed in time for this season they will be added to the Florida fleet next winter. The Clyde Line also has under construction two steamers at Newport News, which will be put into Florida service. These are the largest type of coastwise steamers used in that company's operations. The Clyde Line has recently chartered two steamships from the Old Dominion Line, so that with the new ones now under construction it will have ten or more ships in the Florida fleet. The Merchants and Miners line is running four ships from Baltimore, four from Philadelphia, and one from Savannah, to Florida ports. The Baltimore and Carolina Steamship Company operates two passenger and three freight steamers from the East to Miami. There are also lines running from Mobile to Miami, and from New Orleans to Tampa, and from New York to Tampa.

This is by no means a complete list of steamship lines to Florida, for so many new steamships are being added to the trade that what is written one day may not fully cover the story the following day. One interesting illustration of how some of these transportation problems are being met is given in a telegram which I have received today and which indicates the spirit that is abroad in Florida to help meet the emergency. J. W. Young, owner and builder of Hollywood, wires me that he has purchased one steamship, five four-masted schooners and is on his way to New York to purchase two more

steamships and one ocean-going tug. These boats are intended to carry freight of all kinds, especially building material, from the East and from Europe to Hollywood.

George E. Merrick, owner of Coral Gables, has just chartered four big schooners, each to have a carrying capacity of 1,000,000 feet of lumber, to supply the building material needed at the point.

To meet this increasing need of transportation service the railroad have been greatly enlarging their terminal and shop facilities at many points; while at nearly every port some extensive improvements have been under way to handle the water going traffic. Probably the most ambitious undertaking of this character is a plan for building at Hollywood a \$15,000,000 harbor, for which Gen. George W. Goethals is consulting engineer.

A New York contracting company is widening the inlet and building jetties at Boca Raton to cost \$450,000. St. Augustine proposes the building of a sea-wall and work in connection therewith at an outlay of \$500,000. Sarasota plans a sea-wall and water-front improvements to cost \$1,000,000 including the construction of a deeper channel, with

turning basins, etc. The Continental Terminal company has announced plans for harbor improvements at Miami and Miami Beach to cost \$10,000,000. The Florida New Shipbuilding district has a letter to the effect that it is planning a \$1,500,000 for deepening the harbor and developing a harbor at Daytona and New Smyrna.

A company has secured a large tract of land, at the cost of \$3,000,000 for warehouses and docks. A Miami company has recently announced plans for the expenditure of \$4,000,000 for bulk-handling and filling-in work. A water-front development at Port Lauderdale proposed by Miami investors, will, it is claimed, cost \$10,000,000. The Mallory-Culley Terminal at Tampa recently let contracts for large warehouses and terminal improvements.

There are but a few of the many harbor-improvement enterprises under way or projected; many others are proposed and a good many are already in progress, not only in southern Florida but in the upper part of the state.

I have thus tried to give merely an outline, as requested by the editor of the Review of Reviews, of some of the transportation activi-

ties in Florida which bear on the future development of that state. The story could be extended almost without limit, for many important enterprises in railroad expansion and in harbor improvements have been necessarily had to be omitted.

Last winter the railroads entering Florida advertised a total of forty-five full Pullman trains a day to carry people into the state. Arrangements to come out of Florida in the spring had to be made anywhere from four to eight weeks ahead. The number of trains needed this winter will be very much larger than last winter, probably double as many if the railroads can handle them and the deepest concern of the railroad officials of all of these lines is how they can by superhuman effort measure up to the burden which rests upon them, of carrying into Florida people who want to go there and of handling the freight which is necessary to feed and house them there.

These railroads face a burden greater perhaps than the railroads of the country had to handle during the most active period of the war; and they face this situation even during the present time of fair weather. How they will meet it when ice and snow cover the North

and West, delaying traffic and at the same time increasing the desire to get into a warm country, it is impossible to comprehend. It must also be remembered that Florida railroads, in addition to much other outbound and inbound freight, have to handle about 100,000 carloads of early vegetables and citrus fruits, shipped mainly during the winter and spring to feed the North and West, or an average, say, of 900 carloads a day for six months. As all of this is perishable freight it must be rushed almost at passenger traffic speed.

While thus briefly sketching some features of Florida's transportation interests, I feel compelled to utter a word of warning against the rush of some people to Florida who are not prepared to undergo certain trials and hardships and who are not able to stand them, while this situation lasts. The pioneering spirit, which settled the west when men and women endured trials of which later generations know nothing, must be born again in many people. Florida is becoming overcrowded in proportion to its housing facilities. The railroad congestion is typical of the congestion everywhere and in everything. It will take time to work out these

hard problems. The real friends of Florida, in their efforts to meet this condition, will be handicapped by the vultures who always flock to such opportunities for robbery and graft.

But the resources and charms of Florida have not been overdrawn; they are real and tangible; they will make a great commonwealth of vast industrial, agricultural and commercial power. No one need fear for the future of the state, though the truth that is now in evidence may serve to mislead some and provoke hostile criticisms from the disappointed is inevitable.

We shall probably see a repetition of the California gold-rush of 1849, with its nation-wide movement to that coast, magnified in proportion as the population and wealth of the country of today exceeds that of 1849. There were many disappointed ones then, many who returned to their old homes in disgust, because they had failed to strike "pay dirt," but the California of today with its great population and vast wealth is the harvest from the seed sown in 1849. Florida is now sowing its seed for a great harvest in the future.

## FOR THOSE WHO CARE WHAT THEIR MONEY BUYS

Dodge Brothers, Inc. have always built a good, sound, long-lived product.

They have never built "yearly models" and never will.

They do not make frequent expensive changes simply to catch the whim of the hour.

On the contrary, they devote themselves steadfastly to the improvement of a car that has been good from the very beginning.

This process of improvement has now been going on for 11 years.

Its influence on the car's appearance and performance has been nothing short of remarkable.

Always eminently *dependable*, it is now also an exceptionally *easy riding* car.

Always up-to-date, it is now strikingly *attractive*.

Style and smartness stand out in every line.

Sheer logic never made the choice more obvious—

*Dodge Brothers Motor Car for those who really care what their money buys.*
